

Confirmed or Presumptive Positive COVID-19 Cases as of **June 5, 2020:**

Confirmed Resident Cases			
	A.G. Rhodes Atlanta	A.G. Rhodes Cobb	A.G. Rhodes Wesley Woods
Cumulative	3	25	20
Currently presumed or confirmed positive	0	2	0
Death following a positive diagnosis	0	6	3
Confirmed Staff Cases <i>(Includes staff who work in our building but who are employed by our dietary and therapy partners.)</i>			
	A.G. Rhodes Atlanta	A.G. Rhodes Cobb	A.G. Rhodes Wesley Woods
Cumulative	11	7	14
Currently presumed or confirmed positive	3	0	0

Key:

Cumulative: Many residents and staff who once tested positive for COVID-19 are no longer presumed to be positive. Some former residents have even discharged home or to a lower level of care. The cumulative number reflects a running total of confirmed cases since our first case emerged in our Wesley Woods home on April 1, 2020.

Currently presumed or confirmed positive: This is a subset of the cumulative number of confirmed cases. This number is more like a snapshot and reflects the current number of A.G. Rhodes residents in our care—or staff members employed by A.G. Rhodes or our dietary/therapy partners—who are still presumed or confirmed to be positive for COVID-19.

We follow the Centers for Disease Control and Prevention (CDC's) guidelines to evaluate when residents and staff are no longer presumed to be positive for COVID-19. Additionally, many residents are retested at the direction of and in coordination with our Medical Directors.

Death following a positive diagnosis: While the number of deaths following a COVID-19 diagnosis is provided, please note that A.G. Rhodes does not determine the cause of death for any resident. Our heartfelt condolences are extended to the loved ones of residents who have passed away, and to all those who have been impacted by this virus. We know this is an extremely difficult time, and our sympathies are with you.

In the interest of transparency and public safety we will provide updates as appropriate while following HIPAA regulations and protecting our residents', staff's, and family members' right to privacy. Information is also reported as required to various agencies including the Georgia Department of Public Health (DPH), the Georgia Department of Community Health (DCH), the Centers for Medicaid and Medicare Services (CMS), and the CDC.
